Faculty will update their FEAS (online resume) prior to the annual review. The committee will review teaching, scholarship and service activities conducted during the previous year.

The committee will make recommendations to the faculty member addressing the areas of teaching, scholarship, and research. These letters will be shared with the department chair, who will review them with the faculty member. All faculty members below the rank of tenured, full professor, will receive progress letters.

In addition to the annual department review, Assistant Professors hired July 1, 2019 or later shall receive a tenure review at the college level in their third year. Assistant Professors hired before July 1, 2019 and who have not yet had a 2nd-year review may choose between a 2nd and 4th year set of reviews or a 3rd year review. Assistant Professors hired before July 1, 2019 and who have already had a 2nd year review shall have a 4th year review. These reviews are mentoring opportunities during which the college Promotion and Tenure Committee shall provide specific feedback and advice reflecting expectations for tenure and how the faculty member is progressing toward meeting those expectations. The faculty member shall meet with the department chair to discuss the report. Tenure Review Report(s) shall be included in the tenure binder. Assistant Professors hired with credit toward tenure shall have credited years included in the determination of the timing of the third-year review unless an alternative schedule is mutually agreed upon by the faculty member and his or her supervisor.

**Section 2. Annual Peer Evaluation for Specialized Faculty:** A Department Committee will be elected to review each specialized faculty members. Faculty will update their FEAS (online resume) prior to the annual review. The committee will review those
aspects of teaching, scholarship and service that are reflected in the Assignment of Responsibilities of the faculty member.

The committee will make recommendations to the faculty member addressing the areas of teaching, scholarship, and research (as applicable). These letters will be shared with the department chair and the faculty member. All specialized faculty below the highest rank will receive progress letters.

**Section 3. Annual Evaluation of Faculty by Chair:** The Chair shall have the responsibility to evaluate all faculty members according to the standards set forth by the Florida State University evaluation policies and procedures. The Chair shall require an annual summary of activities from all faculty members to ensure that matters pertaining to teaching, service, research and/or creative activities have been formally documented.

Faculty annual evaluations will occur during the spring semester of each year and will take into account performance of assigned duties over the past calendar year. The chair reviews all documentation submitted by each faculty member as well as pertinent information from other sources as applicable, including peer review, and completes the Annual Evaluation Summary Form. All evaluations must also contain a narrative explanation attached to the evaluation summary form. Meritorious performance is now defined as performance that meets the expectations for the position’s classification and department/unit. There are five performance categories. For faculty who are meeting expectations, there are three categories:

- **Substantially Exceeds High Expectations** – This describes a faculty member who far exceeds performance expectations during the evaluation period and achieves an extraordinary accomplishment or recognition in teaching, research, and service, which may include several of the following: highly significant research or creative activities; demonstrated recognition of the individual by peers as an authority in his/her field; securing significant external funding; attaining significant national or international achievements, awards, and recognition.

- **Exceeds FSU’s High Expectations** – This describes an individual who exceeds expectations during the evaluation period by virtue of demonstrating noted achievements in teaching, research, and service, which may include several of the following: high level of research/creative activity, professional recognitions, willingness to accept additional responsibilities, high level of commitment to serving students and the overall mission of the Department, involvement/leadership in professional associations, initiative in solving problems or developing new ideas.

- **Meets FSU’s High Expectations** – This describes an individual who demonstrates the requisite knowledge and skills in his/her field of specialty and completes assigned responsibilities in a manner that is both timely and consistent with the high expectations of the university.
If an individual’s overall performance rating falls below “Meets FSU’s High Expectations,” specific suggestions for improvement should be provided to the employee. There are two performance rating categories for individuals who are not meeting expectations:

- **Official Concern** – This describes an individual who demonstrates the requisite knowledge and skills in his/her field of specialty but is not completing assigned responsibilities in a manner that is consistent with the high standards of the university.

- **Does Not Meet FSU’s High Expectations** – This describes an individual who fails to demonstrate with consistency the knowledge, skills, or abilities required in his/her field of specialty and/or in completing assigned responsibilities.

A Performance Improvement Plan (PIP) is required when a non-tenured faculty member receives a “Does Not Meet FSU’s High Expectations” rating. Tenured faculty members may be placed on a PIP if they receive an overall performance rating of “Does Not Meet FSU’s High Expectations” on three or more of the previous six performance evaluations.

**Section 4. Merit:** All tenured, tenure-earning, and specialized faculty members (with the exception of the chair) will be ranked based on their performance in assigned responsibilities in the areas of teaching, scholarship, and service, and these rankings will be used as a basis for decision making when merit pay increases are available. All tenured, tenure-earning faculty, and specialized faculty members will complete these rankings after careful review of the annual summary of accomplishments in teaching, scholarship, and service. The average will be determined after dropping the high and low scores. The assignment of responsibilities will also be considered when merit rankings are done. The committee must take the faculty assignments into consideration. Merit criteria may not mandate a merit pay award for all members of the department. Merit criteria must reflect distinctive levels reflecting the differences in performance.

**Section 5. Promotion and Tenure for Tenure Track Faculty:** An elected committee shall coordinate the development of Promotion and Tenure criteria. The department promotion and tenure guidelines shall be approved by majority consent of the Department Assembly. These guidelines shall include (but not limited to) the requirements set forth by the University, the Provost, the Office of Faculty Development and Advancement, the Dean of the College of Fine Arts, and the Department. A complete set of guidelines pertaining to University and Department Promotion and Tenure requirements shall be made available to all eligible faculty members each year for matters of promotion and tenure.

**Section 6. Promotion and Tenure for Specialized Faculty:** “Promotion-eligible” faculty members include all specialized faculty members below the highest-level rank in each track. Demonstrated sustained excellence in performance of one’s assignment of
responsibilities shall be the basis for promotion recommendations. Promotion is not automatic nor should it be regarded as guaranteed upon completion of a given term of service. Specialized faculty are typically reviewed for promotion during the 5th year in their current rank. For faculty members who are recommended for promotion prior to completion of five years in rank, justification for early promotion must be included in the chair’s/director’s/supervisor’s (or equivalent) letter.

An elected department committee shall coordinate the development of promotion criteria. This committee shall have at least one specialized faculty member serving on the committee. These guidelines shall include (but are not limited to) the requirements set forth by the University, the Provost, the Office of Faculty Development and Advancement, the Dean of the College of Fine Arts, and the Department. A complete set of guidelines shall be made available to all eligible specialized faculty members each year for matters of promotion.

**ARTICLE 11. Amendments to the Bylaws:**

Proposed amendments may be presented to a regular or special session of the Department Assembly for information and preliminary discussion, and placed on a future Agenda for a vote. A proposed amendment must be made available in writing to the voting membership at least two weeks prior to the meeting at which the vote is to be taken. Reasonable efforts shall be made to provide amendments to voting faculty who are not in residence at the time of discussion, and to allow them to vote by absentee ballot. To be adopted a proposed amendment must receive a majority vote of the Department Assembly.

**ARTICLE 12. Sunsetting of Bylaws:**

These Bylaws shall sunset five (5) years after the last amended version.
